### **COMMUNITY MANAGEMENT STATEMENT**

#### **WARNING**

The terms of this Management Statement are binding on the Community Association, each subsidiary body within the Community Scheme and each person who is a proprietor, lessee, occupier or mortgagee in possession of a Community Development Lot, Precinct Development Lot, Neighbourhood or Strata Lot within the Community Scheme.

#### **PART 1**

### **BY-LAWS FIXING DETAILS OF DEVELOPMENT**

These by-laws relate to the control and preservation of the essence or theme of the Community Scheme and as such may only be amended or revoked by a unanimous resolution of the Community Association (see section 17(2) Community Land Management Act 1989).

#### **1. THEME OF COMMUNITY SCHEME**

Nangarin Vineyard Estate is designed as a rural residential housing estate with the benefit of the surroundings of a vineyard in the Southern Highland Region.

#### **2. DEVELOPMENT OF THE NANGARIN VINEYARD ESTATE**

- 2.1 The Original Proprietor proposes to develop Nangarin Vineyard Estate in accordance with the Concept Plans attached to this Management Statement.
- 2.2 The Original Proprietor proposes to develop Nangarin Vineyard Estate in stages.
- 2.3 The Original Proprietor reserves the right, but has no obligation to complete Nangarin Vineyard Estate in accordance with the concept plan attached to this Management Statement or to vary
- 2.4 Some lots will be sold with houses already erected upon them and others will be sold as vacant land for buyers to develop in accordance with their own requirements and this Management Statement

#### **3. ARCHITECTURAL, BUILDING AND LANDSCAPE STANDARDS ("ARCHITECTURAL SCHEME")**

The Architectural Scheme is designed to protect the integrity of Nangarin Vineyard Estate and to ensure that the same high standards of building design are maintained throughout the development.

## MANAGEMENT STATEMENT

3.2 You and the Community Association must comply with the Architectural Scheme.

### 3.3 Architectural Standards

#### 3.3.1 Sitting Your House on the Block

The location of the buildings other than fences and services on each of the Community Development Lots are generally controlled by the guidelines set by Council.

In addition to these guidelines, the following criteria need to be satisfied in relation to buildings other than fences and services:

- 3.3.1.1 building setback for any building works from the boundary between lots 83 and 84 must be 15 metres;
- 3.3.1.2 setback for any building work on Community Development Lots (other than fences) adjoining the Vineyard must be 15 metres;
- 3.3.1.3 no building works may be carried out within 20 metres of Stonequarry Creek;
- 3.3.1.4 no building works may be erected upon or allowed to remain upon any part of a Lot in the Community Parcel shown in the Concept Plan B as Zone "A".

#### 3.3.2 Geotechnical Considerations

3.3.2.1 Building and structures to be erected in any areas shown as Zones "B" and "C" on Concept Plan B must be built in accordance with the following requirements or as varied by a suitably qualified engineer.

##### 3.3.2.2 Zone "B"

It is recommended that the following restrictions and precautions be taken into account for any development within Zone "B".

#### Earthworks

Earthworks, if absolutely necessary within any of the allotment areas located in Zone "B" should be kept to an absolute minimum with all cuts retained by a suitably founded retaining wall or other suitable methods. As a general guide, cut and fills should be limited to about 0.5m. However, any earthworks proposed within a Zone "B" allotment area must be assessed by a suitably qualified and experienced geotechnical engineer to ensure that stability conditions are maintained and the proposed earthworks including any protection works, if required, must be designed by a suitably experienced professional engineer.

#### House Types

Any house type should be of light weight flexible construction with non-masonry materials and with a suspended timber floor founded on poles/posts. Slab on ground construction must not be used.

All footings for buildings and any other structures such as storage tanks, etc should be founded into the underlying rock strata and be designed to take account of potential lateral loading effects due to possible soil creep.

## **MANAGEMENT STATEMENT**

### **Drainage**

Suitable drainage provisions are essential in the development of each building site. Drainage measures should include such items as cat-off spoon drains and subsoil drains around the high side of buildings/structures.

As the overall ongoing stability of the site is particularly dependent on the adequate control of surface and seepage water in this geological environment, particular attention should be given to the provision of adequate surface and subsoil drainage measures at all stages of development of the Community Parcel.

### **3.3.2.3 Zone "C"**

Zone "C" generally encompasses two varying topographic areas, namely the lower ridge flanks below the east-west and north-south ridges, and the gently sloping grazing land occupying the southern and north-eastern portions of the Community Parcel.

Similar restrictions and precautions as outlined in clause 3.3.2.2 for Zone "B" would also be generally applicable for the lower ridge flank areas. However minor earthworks involving cuts and fills up to about 0.5m could be considered with all cuts retained by a suitably founded structural retaining wall or other suitable methods. Nevertheless, it is recommended that slab on ground construction not be used on the lower ridge flanks, ie: those areas located immediately below Zone "B" and where Lots extend partially into Zone "B".

Earthworks involving limited cuts and fills (in the order of about 1.0m) and slab on ground construction could be considered for Lots located on the gently sloping south to south-western portion of the Community Parcel.

However, as conditions vary somewhat across the Zone "C" area, it is recommended that any individual Lot development proposal which departs from the restrictions/precautions outlined in clause 3.3.2.2 for Zone "B" be separately assessed to ensure overall stability conditions are maintained.

### **3.3.3 Building Materials**

An important element in maintaining an harmonious setting is the selection of materials and colours. Innovation and variety is encouraged, provided that the proposed buildings and landscape complement the natural landscape.

#### **3.3.3.1 Wall Materials**

Whilst it is likely that most buildings will be brick or other rendered finishes, other materials such as stone, timber, mud brick and the like will be considered on their individual merit.

#### **3.3.3.2 Roof Materials**

Roof materials must be non-reflective and should complement the style of the home. Untreated Zinalume, galvanised iron, fibre cement and fibreglass are generally unacceptable.

Acceptable materials include:

- clay or concrete tiles;
- pre-finished metal sheeting (eg. colourbond custom orb);

## **MANAGEMENT STATEMENT**

- shingles
- gutters and down pipes should also be pre-finished or painted to match;
- (other materials will be considered on merit).

### **3.3.3.3 Colours**

External colours should enhance the setting of the surrounding natural environment. The Original Proprietor can provide advice in this regard. The expression of architectural elements in stronger colours will be acceptable, exception on elevated lands and ridge lines.

### **3.3.3.4 Roof Form**

Skillion or flat roofs may not be acceptable. Flat roof elements linking pitched roofs that are in keeping with the architectural style of the home are acceptable. Arched or other roof forms will be considered on merit.

### **3.3.3.5 Garages**

All houses built on a lot must have a garage erected simultaneously on that lot with a minimum garage floor area of 32 square metres. Metal, hardiplank (or similar finishes - unless rendered) and prefabricated garages are not permitted.

Where a separate car parking structure is required, the structure should reflect the architecture and form of the main building.

### **3.3.3.6 Retaining Walls**

All retaining walls visible from any public road must be constructed with materials similar in nature to the main building.

All cut or fill areas must be appropriately treated with an approved form of wall, landscaping or a combination of both- details of proposed treatments should be submitted with applications for building approval.

### **3.3.3.7 Ancillary Structures**

All external structures such as gas tanks, garden sheds and clothes lines must be fully screened from roads, accessways and public places.

3.3.3.8 Garages, garden sheds or out building may only be erected or allowed to remain on any Lot if done with or after the erection of any main building.

3.3.3.9 Garages, caravans, garden sheds or out buildings must not be visible from the front boundary of the Lot on which they stand unless constructed in the same materials and architectural style as the main building.

3.3.3.10 No prefabricated building or buildings which have been erected on other land may be erected on, brought onto or be permitted to remain on any Lot.

3.3.3.11 Lots may not be used for a feed-lot or any other agricultural activities carried on in large sheds (other than the Vineyard activities of Lot 3).

## **MANAGEMENT STATEMENT**

3.3.3.12 Unregistered motor vehicles, parts of motor vehicles, motor vehicle bodies or motor vehicles awaiting repair or restoration (whether unregistered or not) may not be housed, parked or permitted to remain upon any Lot unless they are completely housed, parked or stored within a totally enclosed garage in such a way as not to be visible from any other Lot or a public road.

3.3.3.13 Creek areas may not be used for rubbish dumping or for the disposal of any impure materials or liquids.

3.3.3.14 Motorised trail bikes may not be used on the Community Parcel.

3.3.3.15 Owners must construct a driveway from the main building to the road kerb within three months from occupation of their Lot of materials which ensure that there can be no erosion and that all weather access is available. The driveway must be made of a paving material other than plain concrete.

3.3.3.16 No more than one truck or commercial vehicle exceeding three tonnes is permitted within each of Lots 71-73, 91-93 and 111-117 (inclusive), and must be kept screened behind the building line. No trucks or commercial vehicles exceeding three tonnes may be kept on any other Lot.

### **3.3.4 Main Building Sizes**

The minimum main building floor area for each of the Lots is 200 square metres. In assessing the floor area of any main building, the floor area shall include any walls (internal and external) but does not include the floor area of any attached garage, car port or verandah. No main building may be erected or permitted to remain upon any Lot unless it has a minimum area equal to or greater than 200 square metres:

### **3.3.5 Fencing**

Must be in accordance with Concept Plan C and must not be erected by any Owner or allowed to remain erected anywhere on a Lot or its boundary between the building line stipulated by Council and the road frontage of the lot.

## **3.4 Landscape Standards**

### **3.4.1 Outline**

## 3.5 Blue Mountains Code

- 3.5.1 Any building constructed on Lots 43 to 55 and 57 to 66 (inclusive) within the area shown as Zone "B" on Concept Plan B must be constructed in dark toned or dark coloured materials of low reflective quality or materials which are painted or similarly treated with dark toned or dark coloured paint or pigment of low reflective quality (except that light coloured materials or finishes may be used for up to 10% of the external surface area of the building) in

## **MANAGEMENT STATEMENT**

accordance with the City of Blue Mountains Performance Standard for Building Within Residential Areas unless otherwise approved by the Original Proprietor (while ever it owns any Community Development Lots and thereafter by the Community Association) and by Wollondilly Shire Council.

- 3.5.2 Any application to the Original Proprietor and Council must include a schedule of external materials and finishes detailing manufacturer's name, product name or description and a colour chip or sample of the individual materials or finishes proposed.

## **4 HOW TO CHANGE THE ARCHITECTURAL SCHEME**

- 4.1 The Community Association may change or add to the Architectural Scheme only by unanimous resolution.
- 4.2 While ever the Original Proprietor owns a Community Development Lot or a Lot in any Subsidiary Land, the Original Proprietor may exercise the rights of the Community Association under this by-law 4. Any changes approved under this clause must be notified to the Community Association by the Original Proprietor. The decision of the Original Proprietor will prevail over that of the Community Association in the event of any differences.
- 4.3 You may apply to the Community Association or Original Proprietor (as the case may be) to change or add to the Architectural Scheme. The application must:
- 4.3.1 be in writing; and
- 4.3.2 specify with precision how the Architectural Scheme should be changed.
- 4.4 The Community Association or Original Proprietor may ask for more information about an application.
- 4.5 The Community Association or Original Proprietor has refused an application if it does not make a written decision within 2 months after receiving the application.
- 4.6 The Community Association must give a copy of a changed Architectural Scheme to the owners of lots in the Community Development Lots.
- 4.7 You may ask the Community Association for a copy of the Architectural Scheme (at your cost). The Community Association must supply you with a copy within fourteen (14) days of a written application for a copy of the Architectural Scheme.

## **5 NEW WORKS**

- 5.1 You must have the Executive Committee's consent to:
- 5.1.1 change the external appearance of an existing building or change existing landscaping; or
- 5.1.2 build a new structure or carry out new landscaping.
- 5.2 While ever the Original Proprietor owns a Community Development Lot or a Lot in any Subsidiary Land, the Original Proprietor may exercise all of the rights of the Executive Committee under this by-law 5. Any approvals given under this clause must be notified to the Executive Committee by the Original Proprietor. The decision of the Original Proprietor will prevail over that of the Executive Committee in the event of any differences.

## MANAGEMENT STATEMENT

- 5.3 You must make a written application to the Executive Committee or Original Proprietor ( as the case may be ) for consent under this by-law. Plans and specifications must be submitted with the application. The plans and specifications must be in the form and to the standard prescribed from time to time by the Executive Committee or the Original Proprietor (as applicable).
- 5.4 Plans and specifications for building changes and new structures must:
- 5.4.1 show the suitability of design to the existing and surrounding structures and topography;
  - 5.4.2 show the dimensions of the structure;
  - 5.4.3 disclose the type and quality of the materials;
  - 5.4.4 show the location relative to existing and surrounding structures and topography; and
  - 5.4.5 include a landscape proposal which is in harmony with the existing landscape.
- 5.5 Plans and specifications for landscaping changes and new landscaping must:
- 5.5.1 show the suitability of the design to existing and surrounding landscape;
  - 5.5.2 show the species of plant, its height and the quantity to be planted;
  - 5.5.3 disclose the type and quality of the landscaping material;
  - 5.5.4 show the location of the landscaping relative to existing and surrounding landscapes;
  - 5.5.5 explain the removal of or dealing with existing plants; and
  - 5.5.6 identify any likely effects the proposal may have on the Community Property and any of its uses.
- 5.6 For applications under this by-law, the Executive Committee must consider the information in the application and:
- 5.6.1 the suitability and quality of the proposed works;
  - 5.6.2 the harmony of the proposed works with existing structures, landscaping and land uses;
  - 5.6.3 this management statement;
  - 5.6.4 rules; and
  - 5.6.5 the Architectural Scheme.
- 5.7 The Executive Committee will notify the applicant of a decision in writing.
- 5.8 The decision of the Original Proprietor or the Executive Committee (as applicable) is final and binding on the applicant.

## **MANAGEMENT STATEMENT**

5.9 The Executive Committee or the Original Proprietor is deemed to have approved an application if the relevant entity does not make a written decision within 2 months after receiving the application.

### **6 FUTURE CONSENTS FOR NEW WORKS**

The Executive Committee or the Original Proprietor (as applicable) may review applications for the construction of new structures and may give or refuse consent in its absolute discretion. The Executive Committee and the Original Proprietor are not bound by past decisions.

### **7 VINEYARD**

The Architectural Standards and Landscape Standards do not apply to structures on Lot 3 which will be approved initially by the Original Proprietor and after the Original Proprietor ceases to have any Community Development Lots or Lots in any Subsidiary Land by the Executive Committee on the basis of what is reasonably necessary for the effective operation of the Vineyard without causing any significantly adverse effect on the amenity of the Lots.

### **8 CHANGES AND NEW STRUCTURES BY THE COMMUNITY ASSOCIATION**

The Community Association must comply with the Architectural Scheme if it:

8.0.1 changes an existing building or existing landscaping; or

8.0.2 builds a new structure or carries out new landscaping.

### **9 ESTATE NAME AND MARKS**

9.1 The name "Nangarin Vineyard Estate" and any name incorporating the words "Nangarin Vineyard" and the mark consisting of the words "Nangarin Vineyard Estate" together with any logo registered or to be registered or used in association with this development are the property of Bradman Nangarin Pty Limited (ACN 087 557 417). Bradman Nangarin Pty Limited grants a non-exclusive license to the Community Association to continue to use those names and marks in relation to this Community Parcel after Bradman Nangarin Pty limited ceases to use it in that manner.

## **PART 2 RESTRICTED COMMUNITY PROPERTY**

These by-laws may not be amended during the initial period and may only be amended after the expiry of the initial period by special resolution and with the written consent of each party entitled to the by-law to use the restricted Community Property (see section 54, Community Land Management Act, 1989).

### **10 DEVELOPMENT IN STAGES - THE ORIGINAL PROPRIETOR'S RIGHT WHILE IT BUILDS NANGARIN VINEYARD ESTATE**

10.1 While Nangarin Vineyard Estate is being built, only the Original Proprietor of Community Development Lots 37, 38 and 39 has restricted use of the whole of the Community Property.

10.2 The Original Proprietor may:

10.2.1 build and develop Nangarin Vineyard Estate in stages;

## **MANAGEMENT STATEMENT**

- 10.2.2 carry out the building and development work in its discretion;
  - 10.2.3 do demolition work, building and associated work on Nangarin Vineyard Estate;
  - 10.2.4 do landscaping and associated work on Nangarin Vineyard Estate;
  - 10.2.5 use any part of Nangarin Vineyard Estate to exercise its rights under this by-law;
  - 10.2.6 subdivide land in Nangarin Vineyard Estate;
  - 10.2.7 have unrestricted access to Community Property;
  - 10.2.8 park motor vehicles and equipment on Community Property;
  - 10.2.9 place on or attach to Community Property temporary structures, building materials, cranes and other equipment;
  - 10.2.10 install and connect services on Community Property;
  - 10.2.11 put marketing advertising signs on Community Property;
  - 10.2.12 conduct real estate activities on Community Property including, but not limited to sales, auctions and leasing;
  - 10.2.13 lock or secure part of Community Property; and
  - 10.2.14 exercise its rights at any time.
- 10.3 The Original Proprietor must:
- 10.3.1 repair any damage to Nangarin Vineyard Estate caused by exercising the rights vested in it under this by-law;
  - 10.3.2 take all reasonable steps to minimise disturbance to owners and occupiers while carrying out building and development work;
  - 10.3.3 leave Nangarin Vineyard Estate (or parts of it) tidy after building development work is finished; and
  - 10.3.4 maintain the Community Property that it has the right to use.
- 10.4 The Original Proprietor's right under this by-law:
- 10.4.1 for Nangarin Vineyard Estate, will stop when the Original Proprietor notifies the Community Association in writing that building development work has finished; and
  - 10.4.2 for part of Nangarin Vineyard Estate, will stop when the Original Proprietor notifies the Community Association that building and development work for that part of The Nangarin Vineyard Estate has finished;
  - 10.4.3 may be exercised by any subsequent Owner of Community Development Lots 37, 38 and 39 until building and development works are notified as finished in accordance with this clause;

## MANAGEMENT STATEMENT

in which case that subsequent Owner assumes all the rights and the obligations of the Original Proprietor under this by-law 10.

10.5 This is a restricted property by-law. The Community Association may change or cancel it by special resolution only with the written consent of the Original Proprietor of Community Development Lots 37,38 and 39. Initial period restrictions apply.

### 11 VINEYARD

11.1 Subject to paragraphs 10 and 11.2, the proprietor of Lot 3 will have exclusive use rights over the whole of the Vineyard, water in dams, Re-use water from the treatment plant, stored Re-use water and irrigation pump station on the Community Property as shown on the Concept Plan A, for the purpose of carrying on a vineyard, winemaking and associated uses. These rights and any associated obligations are set out in Part 6 of this Management Statement and this paragraph 11.

11.2 If the proprietor of Lot 3 breaches any obligations upon it under this Management Statement, the Executive Committee may:

11.2.1 give notice and particulars of any breach to that proprietor requiring it to be remedied in a reasonable period being not less than 14 days from the date of delivery of the notice to that proprietor;

11.2.2 if any breach is not remedied in accordance with the terms of a notice given under paragraph 11.2.1 and at any time in the case of an emergency enter upon the exclusive use area and carry out whatever action is necessary to remedy that breach or carry out emergency work and to then charge any cost of doing so to that proprietor; and

11.2.3 if any breach persists for 30 days after the expiry of any written notice given under paragraph 11.2.1, to terminate the exclusive use rights granted under this paragraph 11 after first giving a further 30 days notice in writing of its intention to so terminate if the breach is not rectified.

11.3 The proprietor of lot 3 must accept all the Re-use water as discharged from the Community Parcel.

11.4 The proprietor of lot 3 will have exclusive use rights over the water in the 2 dams on the Community Property to use water as may be stipulated by law, license or by any Government Agency for the purpose of irrigation.

11.5 The rights conferred by this by-law may be exercised at any time by the proprietor of Lot 3.

11.6 No fee is payable to the Community Association by the proprietor of Lot 3 for the rights conferred by this by-law.

11.7 The proprietor of Lot 3 has the right to lay and relay pipes, plant and equipment within the Community Property for the purpose of irrigating the Vineyard, and once laid, the proprietor of lot 3 will have exclusive use rights over those pipes for irrigation purposes.

## **MANAGEMENT STATEMENT**

- 11.8 The proprietor of Lot 3 must maintain in good repair and order any pipes, plant and equipment installed by the Original Proprietor to irrigate the Vineyard established on Community Property and must pay any expense in exercising the rights and obligations conferred by this by-law. The proprietor of Lot 3 may charge the Community Association a fee not exceeding the equivalent Sydney Water sewerage only rate for similar residential blocks in the Council area multiplied by the number of Lots connected to the Sewerage System. The Community Association must replace any pipes, plant and equipment installed by the Original Proprietor for sewage removal, Re-use water and irrigation of the Vineyard on the Community Property when worn out and pay for the cost of all electricity consumed in the Irrigation System as well as the cost of the control panel and consumables used in running the Irrigation System.
- 11.9 The proprietor of Lot 3 may enter upon any Community Property for the purpose of carrying out any works necessary for the due operation of the Vineyard and the Irrigation System, but in doing so must reinstate the Common Property as near as possible to its condition prior carrying out such works.
- 11.10 The Executive Committee may enter into an agreement with the proprietor of Lot 3 so that the rights conferred by this by-law may be more readily given effect, varied or changed.
- 11.11 If the proprietor of lot 3 requests the Community Association to resume the exclusive rights granted under this clause then it must in writing, whereupon all such rights come to an end and the Community Association must thereafter provide all aspects of the Sewerage System to Lots including taking the Re-use water into the Irrigation System and all necessary maintenance.
- 11.12 This by-law may only be amended by written agreement between the Executive Committee and the proprietor of Lot 3.
- 11.13 The Community Association and the proprietor of Lot 3 must comply with their respective requirements being those applicable to their respective responsibilities under By-law 41 under any water licence pollution control approval and licence, legislation or regulation granted for the use and irrigation of water at Nangarin Vineyard Estate. All costs associated with such compliance in respect of use of irrigation rights by the proprietor of Lot 3 must be borne by the proprietor of Lot 3. These requirements include, but are not limited to compliance with any existing approval of the Environment Protection Authority for the conveyance, treatment and removal of sewage and Re-use water as are more fully set out in the Nangarin Vineyards Estate Environmental Management Plan lodged by the Original Proprietor with Wollondilly Shire Council.
- 11.14 The irrigation rights conferred by this by-law are over the area shown on Concept Plan A as Vineyard.

## **12 RECREATION FACILITIES**

- 12.1 The Community Association must maintain the Recreation Facilities.

## **13 RULES**

- 13.1 The Executive Committee on behalf of the Community Association may make rules about the control, management, operation, use and enjoyment of the Recreational Facilities provided at Nangarin Vineyard Estate.

## **MANAGEMENT STATEMENT**

13.2 The Community Association may change or add to its rules at any time.

13.3 You must comply with the rules made by the Community Association.

### **14 USING THE RECREATIONAL FACILITIES**

14.1 An Occupier of a Lot and the visitors of that Occupier may use the Recreational Facilities. Owners not occupying Lots may not also use the Recreational Facilities.

14.2 The Recreational Facilities may only be used during hours nominated by the Community Association.

14.3 You and your Occupiers must make sure that an adult exercising effective control accompanies children under 12 who are in your care or the care of your Occupier (as the case may be) when the children use the Recreational Facilities.

14.4 Owners and Occupiers using the Recreational Facilities must not:

14.4.1 run, play, be noisy or do anything that might be dangerous in the Recreational Facilities;

14.4.2 hold parties or other functions in or upon the Recreational Facilities without the consent of the Community Association; or

14.4.3 interfere with, the operation or adjustment of the Recreational Facilities equipment without the Community Association's consent.

14.5 You and your Occupiers must comply with any rules the Community Association makes about using the Recreational Facilities.

### **15 MANAGEMENT OF NANGARIN VINEYARD ESTATE**

15.1 The Community Association may make agreements with third parties about control, management and maintenance of any aspect of the Community Property including Recreational Facilities.

15.2 The Community Association intends to enter into an agreement or agreements with the Manager during the initial period. Those agreements are disclosed in this by-law for the purpose of section 24 of the Act.
